CHRISTMAS CARDS 2022

"Poinsettia Collection"

How I made the flowers :

- * Die cut the flowers from cardstock
- * Assemble the three different sizes on top of each other, staggering the petals, and using Stampin' Dimensionals in the centre for added dimension.*
- * Attach the centre piece using glue or tape.

**You may want to use tape or glue if they are going to be posted.*

Other essential items :

- * Liquid glue - I use Art Glitter Glue and Helmar Craft Glue
- * Foam tape to give projects a 3D look : Stampin' Dimensions from Stampin' Up!, rolls of foam tape from various craft suppliers, i.e. Officeworks, Spotlight, Kaisercraft, Craft Online, Scrap Dragon
- * Adhesive tape (on rolls) and tape runners : from the above mentioned craft suppliers. I use Crafters Companion Tape Runners which I buy on eBay.
